

iPhone IOS - Configurazione account mail (CST)

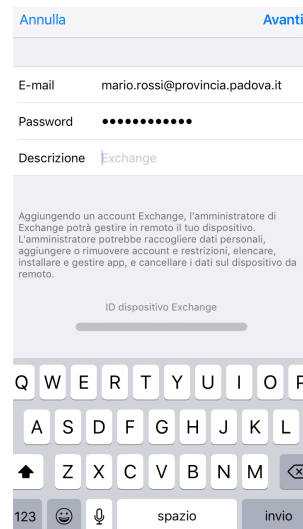

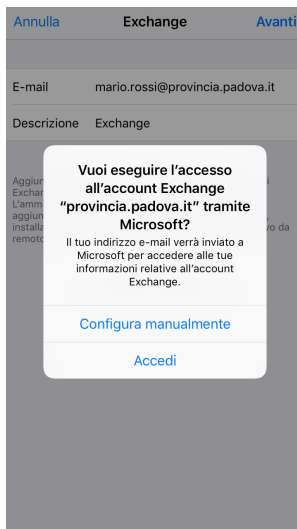

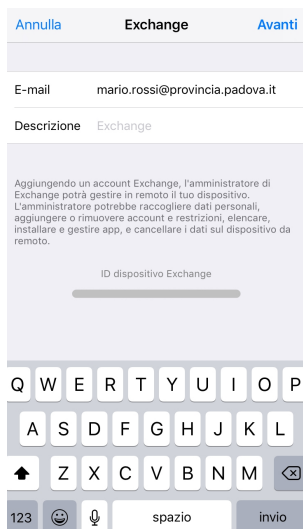

Zimbra Mobile

IOS 11-12

- Dalla schermata Home scegliere "Impostazioni" / "Password e account"
- Scorrere fino ad "ACCOUNT" e scegliere "Aggiungi account"
- Quindi selezionare "Exchange"
- Compilare i campi con le credenziali dell'account di posta elettronica (vedi esempio).

- Digitare E-mail e Descrizione, quindi scegliere "Configura manualmente", digitare la Password, e scegliere "Avanti":

- Compilare i campi "Server" e "Nome utente" come da esempio. Quindi scegliere gli elementi da sincronizzare (a scelta)

Exchange account setup screen showing fields for E-mail, Server, Dominio, Nome utente, Password, and Descrizione. The 'Server' field is filled with 'mailcst.provincia.padova.it' and 'Nome utente' with 'mario.rossi@provincia.padova.it'. The 'Password' field is masked with dots. The 'Descrizione' field contains a warning message about remote management and an 'ID dispositivo Exchange' field.

Exchange account setup screen showing the 'Exchange' section. The screen has buttons for 'Annulla', 'Exchange', and 'Salva'. Below are toggle switches for 'Posta', 'Contatti', 'Calendari', 'Promemoria', and 'Note'. 'Posta', 'Contatti', and 'Calendari' are turned on, while 'Promemoria' and 'Note' are turned off.

- Scegliere **"Salva"**
